Kannur

Sir,

Sub: Suggestion for Curriculum up gradation – reg:-

Based on the feedback collected from the stakeholders, I am submitting the consolidated report
For your consideration in the forthcoming syllabus revision.

1. Syllabus should be modify as per the need of the hour.
2. Curriculum should be progressive and inculcate the scientific temper among students
3. Special consideration should be given to include the topics related to recent developments in biology.
4. Include relevant topics which give more employability
5. Practical syllabus should be upgraded, include modern experimental methods and withdraw outdated experiments.
6. The syllabus has to modified in par with the current industrial trends for attaining employment

With warm Regards

Dr. Denny Philip

Sir,

Sub: Suggestion for Curriculum upgradation – reg: -

I am submitting the aggregated report based on the stakeholder feedback about the curriculum for your consideration, which can be included in the next curriculum revision.

1. The most pertinent topics should be included in the syllabus.
2. The syllabus can include subjects that help to bridge the gap between corporate and academic requirements.
3. The curriculum should incorporate more practical concepts than academic ones.
4. The curriculum should contain more common reference books.
5. The syllabus needs to incorporate student-centred courses.
6. More subjects which enhance research attitudes among students can be included.
7. The syllabus may include a topic that improves self-study.
8. The curriculum should include lessons that aid students in developing their life skills.
9. The syllabus should be imparted with subjects that are included in the syllabus of UGC NET exam.

With warm Regards

Kannur University

Sub: Suggestion for Curriculum upgradation – reg:-

Sir,

Based on the feedback collected from the stakeholders, the Department of Physics, Nirmalagiri College would like to submit a consolidated report for your consideration in the forthcoming syllabus revision.

1. Modify the syllabus with multidisciplinary perspective.
2. An updating of the curriculum including highlights of recent advances in the subject.
3. Some basic topics included in the generic courses can be included in the core courses as they highlight the progress made in the subjects.
4. Syllabus should be framed in accordance with national level competitive exams.
5. Recent advances in physics and broadly in science like in nanosciences, or specifically related to solar cells, supercapacitors or energy devices as well as advanced courses in computer programming suited for physics students can be introduced to ensure competence of the students.
6. Introduction to a mini-project during the first two years can be helpful to the students while conducting their major project in the final year.
